"NO TROUBLE TO ANSWER QUESTIONS."

HE delights of an evening spent around a well-lighted reading table are not half understood. An illustrated magazine with its wealth of illustrations, its stories of adventure and love, its descriptions of travel which carry you to the remotest ends of the earth, and its instructive articles for young and old-these are the first requisites for your over enjoyment and the entertainment and proper education of your children. O 11.

To secure for you the best and most interesting of the great illustrated magazines at the lowest possible price has been the aim of the editor of this journal. That we have succeeded we leave our readers to judge. A special contract recently entered into with The Cosmopolitan, which seeks to become better known in this neighborhood, has enabled us to offer you a year's subscription to the greatest of the illustrated magazines together with a year's subscription to this journal,

Both Together One Year for Only \$ 3.50

In this way you secure your own home paper and an illustrated magazine at a price that is only about a fourth of what some of the illustrated magazines sell for. For three years The Cosmopolitan has undisputedly claimed that it reached the largest clientele possessed by any periodical, daily, weekly or monthly, in the world. It was The Cosmopolitan which sent Julian Hawthorne to India to let the world know the real horrors of famine and plague. It was The Cosmopo. itan which established at its own cost a great Free Correspondence University which now has over 20,000 students on its rolls. It was The Cosmopolitan which offered a prize of \$3,000 for the best horseless carriage and prizes for best plans for public baths, and best arrangement of sewer and pipe systems for cities. It was The Cosmopolitan which set the presidents of great schools and universities seriously discussing the defects of existing educational systems. It is The Cosmopolitan whose enterprise is always in the lead in advancing the world's civilization.
